Profile

Experienced Student Software Developer with a passion for learning and a diverse skill set including JavaScript, Git, React, and Python. Demonstrated ability to balance full-time employment with part-time education, showcasing strong work ethic and time management skills. Known for achieving high academic performance and quickly advancing in the workplace due to attention to detail and hands-on problem-solving. Eager to transition into a software development role and tackle challenging projects in app or video games. Committed to continuous growth and seeking opportunities to apply technical expertise in a professional setting while pursuing further education.

Employment History

Rug Maker, House of Carpet

April 2019 — Present

As a Rug Maker at House of Carpet, I specialize in fabricating rugs and runners, utilizing my passion for building and attention to detail. I have honed my manual skills and consistently delivered high-quality products, leading to a rapid promotion and sustained success in the role.

- Fabricated a wide range of rugs and runners with precision and attention to detail.
- Demonstrated consistent high-quality work, leading to a rapid promotion within the company.

Pest Control, Mosquito Authority

April 2015 — October 2018

During my tenure at Mosquito Authority, I effectively managed pest control operations, ensuring the safety and well-being of clients. I utilized my expertise in pest management to provide comprehensive solutions and maintain a pest-free environment for clients.

- Managed pest control operations to ensure the safety and well-being of clients.

- Provided comprehensive pest management solutions to maintain a pest-free environment.

- Consistently delivered high-quality service, contributing to overall client satisfaction.

Printing Industry, Docusource

June 2014 — March 2015

During my time at Docusource in the printing industry, I contributed to efficient printing operations and collaborated with a dedicated team to ensure seamless production processes. My attention to detail and commitment to quality were integral to the successful execution of printing projects.

- Contributed to efficient printing operations, optimizing production processes.

- Collaborated with a dedicated team to ensure seamless printing processes.

- Maintained a high level of attention to detail, ensuring the quality of printed materials.
