Time Management

Problem-Solving

Profile

Full time dedicated employee, part time eager student. Skilled craftsman with a passion for coding and building. Demonstrated ability to maintain high levels of responsibility, integrity, and dedication by balancing work, school, and life. Leading by example is the best way for me to showcase work ethic and time management. Known for achieving high academic performance and quickly advancing in the workplace due to attention to detail and hands-on problem-solving. Eager to transition into a software development role and tackle challenging projects and build cool apps. Committed to continuous growth and seeking opportunities to apply technical expertise in a professional setting while pursuing further knowledge.

Employment History

Rug Maker, House of Carpet, Richmond

April 2019 — Present

As a Rug Maker at House of Carpet, I specialize in fabricating rugs and runners, utilizing my passion for building and attention to detail. I have honed my manual skills and consistently delivered high-quality products, leading to a rapid promotion and sustained success in the role.

- Ability to maintain a high level of attention to detail through carpet cutting, binding edges, sewing machine maintenance, pattern matching, and complex templates and geometry .
- Ability to multitask demonstrated through other job responsibilities, including: inventory management, processing deliveries, utilizing company software, customer service, and more.
